Review of three business segments:

% : Profit ratio []: Sales after elimination of inter-segment transactions

- Construction, Mining & Utility Equipment: Sales advanced, mainly supported by increased volume of sales and positive effects of foreign exchange rates. Segment profit climbed, mainly supported by increased volume of sales.
- Retail Finance: Revenues advanced, supported by an increase in new contracts resulting from expanded sales of the construction, mining & utility equipment business. Segment profit advanced, reflecting no more adverse effects of an extension of payments, which were implemented and recorded for the corresponding period a year ago under the COVID-19 pandemic.
- Industrial Machinery & Others: Concerning presses and machine tools for the automobile manufacturing industry, both sales and profits advanced, reflecting recovering demand against the backdrop of regaining capital investment and the completion of installing machinery at overseas customers' plants. With respect to products for the semiconductor manufacturing industry, both sales and profits increased, esp. supported by excellent sales of the Excimer laser-related business.

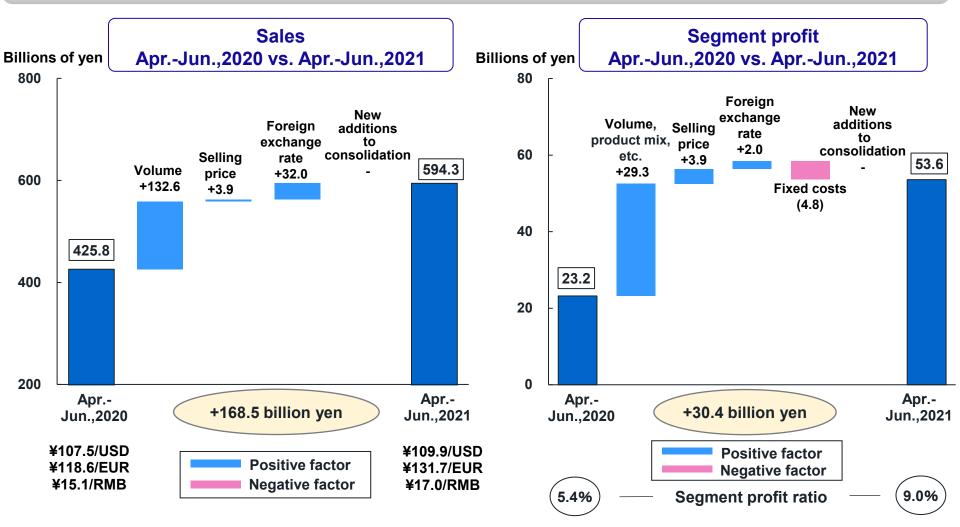

Construction, Mining & Utility Equipment: Sales by Region (To Outside Customers) First 3-Month Period (April-June, 21) of FY2021

- · Sales to outside customers increased by 41.2% from the corresponding period a year ago, to JPY593.0 billion.
- · Sales improved in all regions, except for China.
- The ratio of sales in Strategic Markets increased to 56% of total sales.

Construction, Mining & Utility Equipment: Causes of Difference in Sales and Segment Profit for the First 3-Month Period (April-June, 21) of FY2021

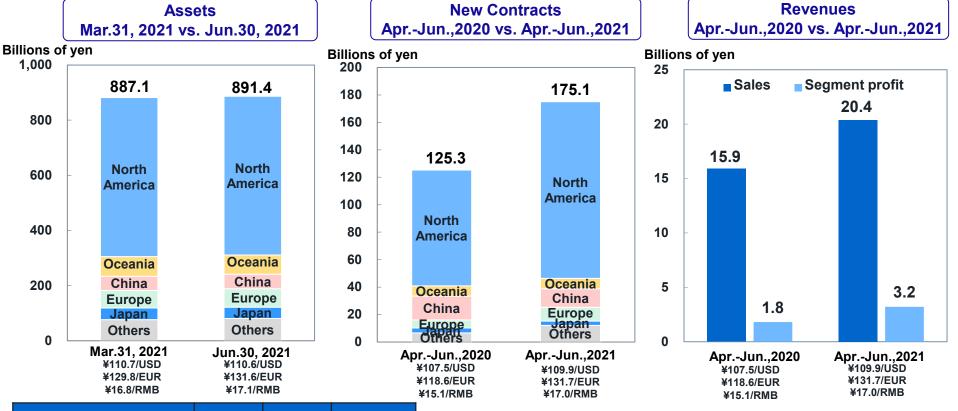

- Sales increased by JPY168.5 billion from the corresponding period a year ago, mainly supported by increased volume of sales and positive effects of foreign exchange rates.
- Segment profit increased by JPY30.4 billion from the corresponding period a year ago, reflecting increased volume of sales.
- Segment profit ratio was 9.0%, up 3.6 points from the corresponding period a year ago.

Retail Finance: Assets and Revenues for the First 3-Month Period (April-June, 21) of FY2021

- · Assets remained about flat from the previous fiscal year-end.
- New contracts increased by JPY49.8 billion from the corresponding period a year ago, supported by increased sales of the construction, mining and utility equipment business.
- Revenues increased by JPY4.5 billion, supported by an increase in new contracts.
- Segment profit increased by JPY1.3 billion, reflecting no more adverse effects of an extension of payments, which
 were implemented and recorded for the corresponding period a year ago.

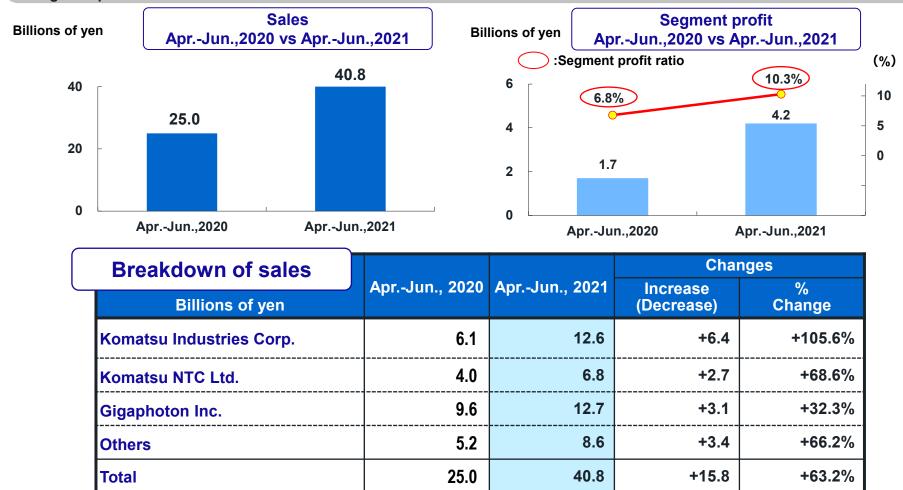

Billions of yen	2021/3E	2021/6E	Changes
Interest-bearing debt	674.7	683.5	+8.8
Interest-bearing debt, net	672.3	679.5	+7.2
Net D/E ratio	3.69	3.68	(0.01)pts.

Industrial Machinery & Others: Sales and Segment Profit for the First 3-Month Period (April-June, 21) of FY2021

- Sales advanced by 63.2% from the corresponding period a year ago, to JPY40.8 billion.
- · Segment profit advanced by 146.2% to JPY4.2 billion.
- Presses and machine tools for the automobile manufacturing industry: Both sales and profits advanced, reflecting recovering demand against the backdrop of regaining capital investment and the completion of installing machinery at overseas customers' plants.
- Products for the semiconductor manufacturing industry: Both sales and profits increased, esp. supported by excellent sales of the Excimer laser-related business.
- · Segment profit ratio was 10.3%.

Consolidated Balance Sheets

- Total assets increased by JPY5.5 billion from the previous fiscal year-end, to JPY3,790.3 billion.
- Inventories increased resulting from an increase of demand in the construction, mining and utility equipment business.
- · Komatsu Ltd. shareholders' equity ratio increased by 0.5 percentage point, to 51.0%.

Consolidated payout ratio	48.9%	40.1%		•

X Annual dividends per share for FY2020 include JPY 10 for the 100th anniversary commemorative dividend.

Construction, Mining & Utility Equipment: Actual and Projected Demand for 7 Major Products

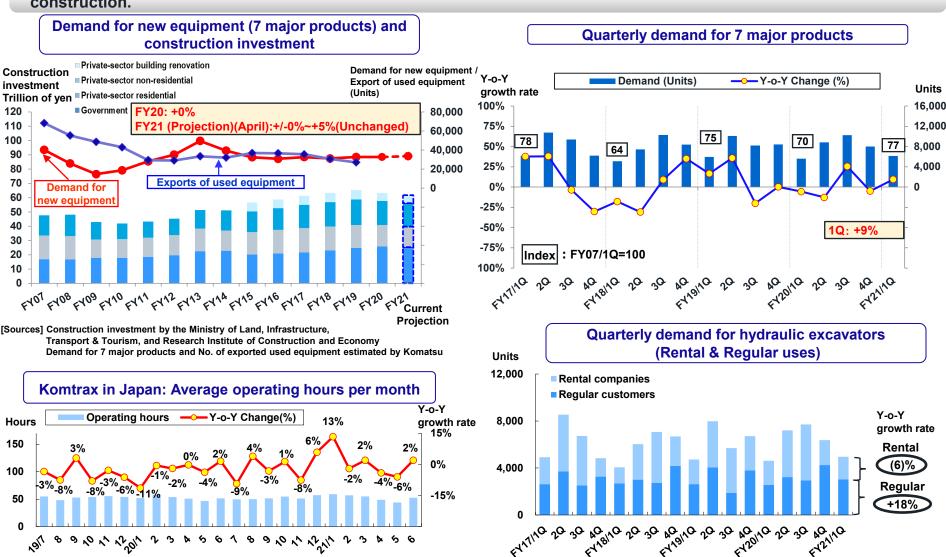

- In 1Q FY2021, global demand increased by 19% from the corresponding period a year ago. When China is excluded, demand increased by 50%.
- In FY2021, demand will increase between +/-0% and 5% from FY2020. When China is excluded, demand should increase between 10% and 15%.

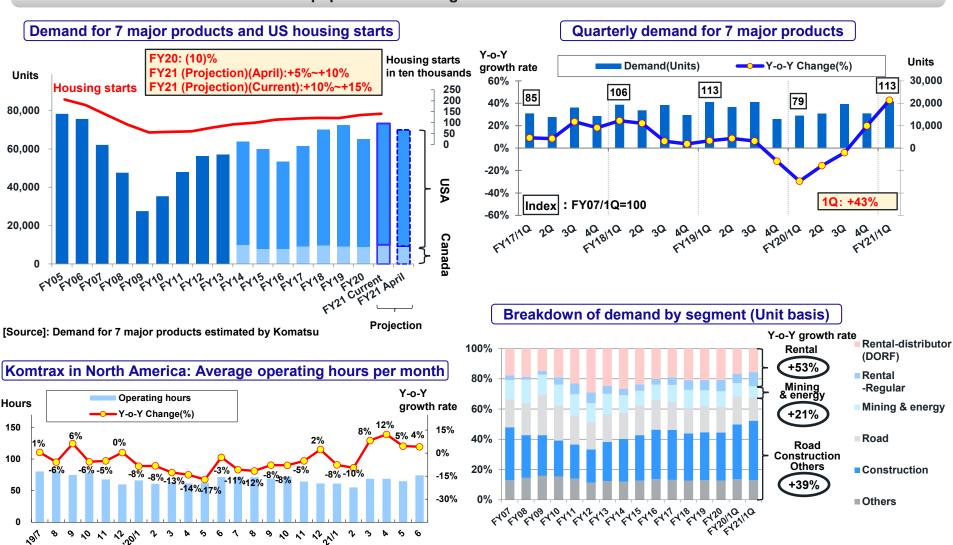

Construction, Mining & Utility Equipment: Demand in Major Markets (1) Japan

- In 1Q FY2021, demand increased by 9% from the corresponding period a year ago.
- In FY2021, demand will increase between +/-0% and 5% from FY2020 (Unchanged from the projection of April 2021).
- Demand should remain firm, against the backdrop of not only steady public works but also recovering private-sector construction.

Construction, Mining & Utility Equipment: Demand in Major Markets (2) North America

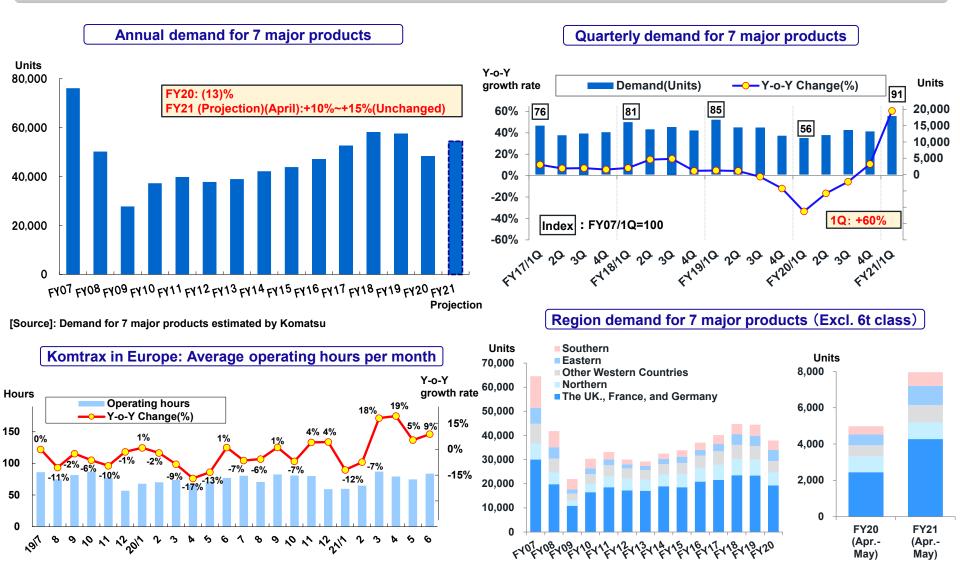

- · In 1Q FY2021, demand increased by 43% from the corresponding period a year ago.
- We have revised our prediction of FY2021 demand upward to +10% to +15% from FY2020.
- Demand should remain steady in residential and non-residential construction as well as road and traffic infrastructure. Demand for rental equipment is starting to recover.

Construction, Mining & Utility Equipment: Demand in Major Markets (3) Europe

KOMATSU

- In 1Q FY2021, demand increased by 60% from the corresponding period a year ago.
- In FY2021, demand will increase between 10% and 15% from FY2020 (Unchanged from the projection of April 2021).
- Demand should recover, centering on major markets, such as the United Kingdom, Germany, and France.

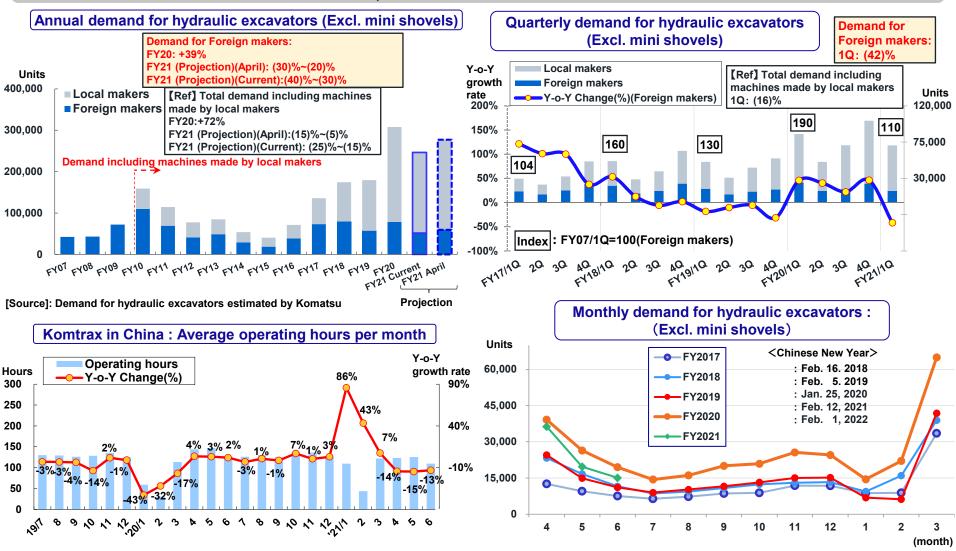

16

Construction, Mining & Utility Equipment: Demand in Major Markets (4) China

KOMATSU

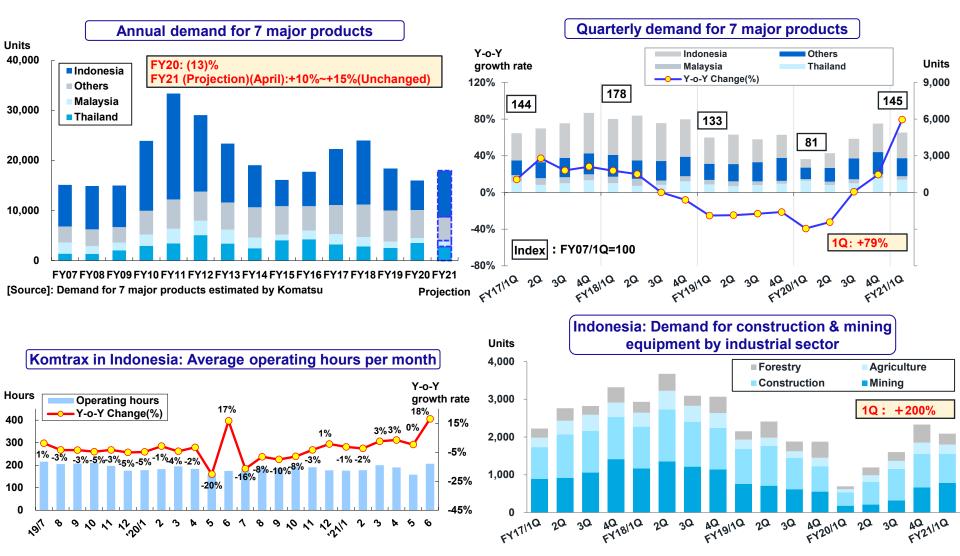

- In 1Q FY2021, demand decreased by 42% from the corresponding period a year ago.
- We have revised our projection of full-year demand downward to -40% to -30%.
- Demand should decline from FY2020, mainly because the post-Chinese New Year sales season will not be pushed back into FY2021 for an increase of demand, and infrastructure investment will slow down.

17

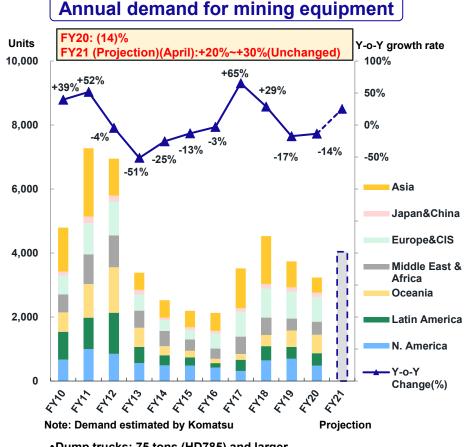

Construction, Mining & Utility Equipment: Demand in Major Markets (5) Southeast Asia

- In 1Q FY2021, demand increased by 79% from the corresponding period a year ago.
- In FY2021, demand will increase between 10% and 15% from FY2020 (Unchanged from the projection of April 2021).
- Demand will recover in many countries in the region, including the largest market of Indonesia.

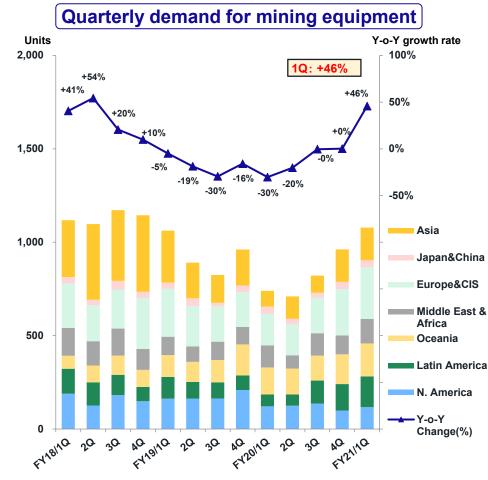

Construction, Mining & Utility Equipment: **Actual and Projected Demand for Mining Equipment**

- In 1Q FY2021, global demand for mining equipment increased by 46% from the corresponding period a year ago.
- · Demand will increase, centering on Oceania, Latin America, CIS, and Asia, and is projected for an increase of 20% to 30% (Unchanged from the projection of April 2021).

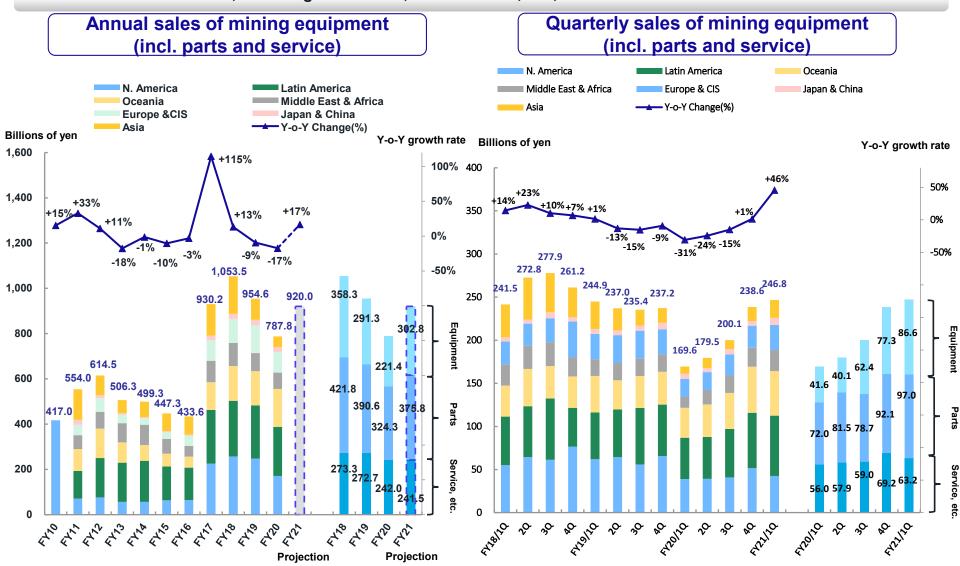

- Bulldozers: 525HP (D375) and larger
- Excavators: 200 tons (PC2000) and larger
- •Wheel loaders (mechanical driven): 810HP (WA800) and larger
- •Motor graders: 280HP (GD825) and larger

Construction, Mining & Utility Equipment: Sales of Mining Equipment

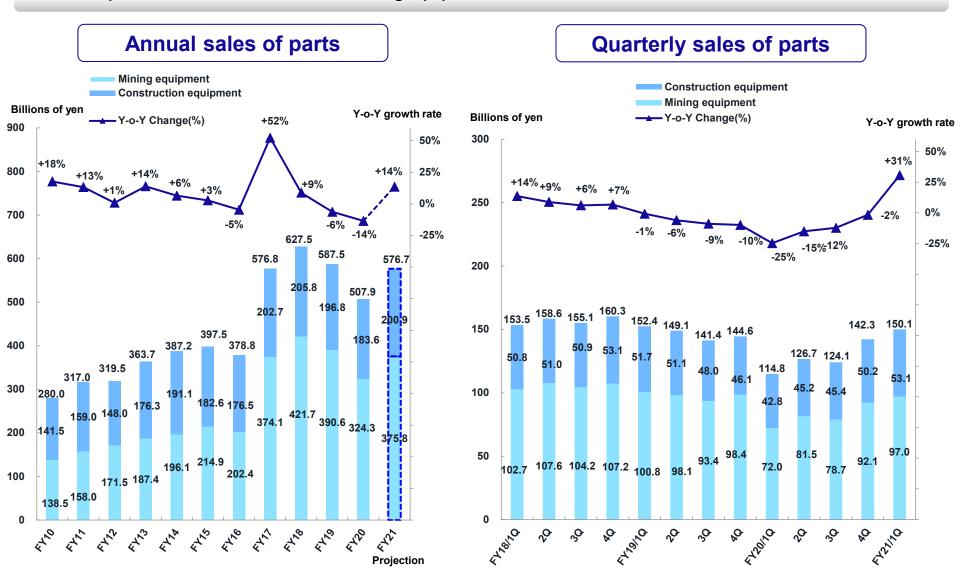

- In 1Q FY2021, sales increased by 46% from the corresponding period a year ago, to JPY246.8 billion.
- Demand should increase, centering on Oceania, Latin America, CIS, and Asia.

Construction, Mining & Utility Equipment: Sales of Parts

- For 1Q FY2021, sales of parts increased by 31% from the corresponding period a year ago, to JPY150.1 billion.
- Sales of parts for both construction and mining equipment will increase.

Komatsu NTC

Electrification Strategy

Announced a fully electric mini excavator powered by lithium-ion battery and with no operator on board as our next concept machine.

(News release of May 13, 2021)

Honda Mobile Power Pack

Began market introduction of the PC78USE-11 hydraulic excavator in Japan, which can be plugged into a power outlet.

(News release of July 20, 2021)

Concept machine for fully electric and remotely controllable mini excavators

Komatsu and Honda will start joint development to electrify the PC01 micro shovel which uses the swappable Honda Mobile Power Pack.

(News release of June 10, 2021)

The PC78USE-11 features eco friendliness with no emissions and many hours of continuous operation

Sales of the CE series PC200-10M0 Hydraulic Excavator for Use in Southeast Asia to Start in July

- We will launch this model, starting in Indonesia and Thailand, under the 2-model line strategy in Southeast Asia, in which we also market the PC210-10M0 standard model.
- While inheriting the quality and durability of the conventional models, we have achieved better fuel economy and a lower price by optimizing its specs, exclusively for urban civil engineering work, including the use of four-cylinder engines.

(News release of July 26, 2021)

Our Exhibition at the MINExpo in Las Vegas from September 13 to 15, 2021

• We plan to present our solutions of automation, autonomy, electrification, and remote control of mining equipment, as represented, for example, by super-large "power agnostic" mining dump trucks, and collaborative work between super-large hydraulic excavators in remote controlled and unmanned dump trucks.

(News release of July 21, 2021)

regulatory changes and accounting principles and practices.

Cautionary Statement

The announcement set forth herein contains forward-looking statements which reflect management's current views with respect to certain future events, including expected financial position, operating results, and business strategies. These statements can be identified by the use of terms such as "will," "believes," "should," "projects" and similar terms and expressions that identify future events or expectations. Actual results may differ materially from those projected, and the events and results of such forward-looking assumptions cannot be assured.

Factors that may cause actual results to differ materially from those predicted by such forward-looking statements include, but are not limited to, unanticipated changes in demand for the Company's principal products, owing to changes in the economic conditions in the Company's principal markets; changes in exchange rates or the impact of increased competition; unanticipated cost or delays encountered in achieving the Company's objectives with respect to globalized product sourcing and new Information Technology tools; uncertainties as to the results of the Company's research and development efforts and its ability to access and protect certain intellectual property rights; and, the impact of
